

MANUAL CALL POINT

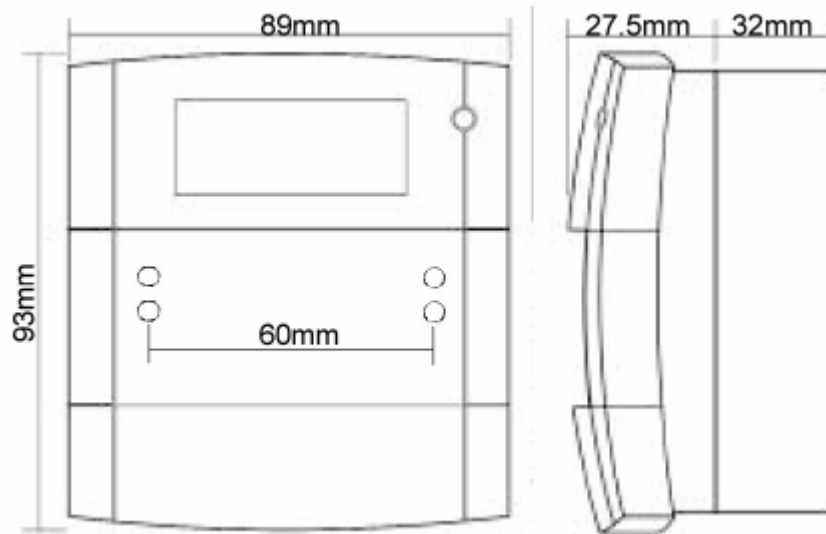

**A modern stylish design provides greater aesthetic appeal. The curved features of the MCP range blend in with today's modern architectural styles.**

**Plug in terminations bring faster wiring and a hassle free first fix option. Simply bring the field wiring to the terminal block. This MCP break glass can quickly become an EN54-11 resettable MCP through a flexible element. A resettable MCP can easily be converted back to a break glass. LED option is available.**

## DIMENSIONS
